DSA 70+ DSA Pre-Approved
Shade Structures

We're proud to offer select fabric shade structures with Division of the State Architect (DSA) pre-check approval! California state schools and other educational facilities can streamline the construction approval process by selecting a pre-approved Superior Shade.

Look for our DSA Pre-Check icon throughout the catalog to view qualifying shade structures.

Craftsmanship You Can Trust

We pride ourselves on delivering creative solutions and unique designs to solve your community's shade needs. Our shades are backed by years of design and engineering experience. They're made with the highest quality materials using the best manufacturing techniques. From best of class machinery like our robotic welders to our use of both double needle lock stitch and double needle chain stitch, you can depend on our skilled craftspeople to bring your shade vision to life.

Traditional Shade Fabric

Material Features

Fabric

- Made from UV stabilized high density polyethylene fabric that prevents fading from the sun
- Raschel-knitted to prevent fraying and shades 34' and larger receive Kevlar® reinforced corners
- Blocks up to 98% of harmful UV rays, depending upon color choice
- Fabric breathes allowing hot air to rise and escape
- Available fabric to meet California State Fire Marshal requirements, NFPA 701, and ASTM E84

Frames

- Engineered to withstand wind speeds up to 150 mph with fabric removed
- Structural tubing complies with ASTM standards
- Finished product includes 6 to 8 mils of combined primer and powder coat — all backed by 5,000 hours of testing per ASTM Method B117

Glide Elbow™

Our Glide Elbow™ quick release mechanism allows for easy installation and removal of your fabric — in the case of a fabric refresh or inclement weather. All you need is a wrench or cordless drill (with the right sized socket). What's more, metal-on-metal wear is minimized with our fabric hook connection. Our Glide Elbow™ is backed by a [1-year limited warranty](#).

Certified Fabricator/Products
