CUSTOM GRAPHICS
Custom Graphics

Recessed impact resistant pulley wheels

Engraved height markings

Aluminum Uprights

3½" upright for strength and durability. Can accommodate a 3" or 3½" floor sleeve

Worm drive winch will easily tighten net and eliminate snap-back

Infinitely adjustable height ranges for club to men's level play. Great for replacing existing standards where floor sleeve depth is an issue

Lockable Floor Sleeves and Covers available
See (page 24)

3" models have an adapter on the bottom of the pole to insert into a 3" floor sleeve

POWERLite™

Designed for versatility and ease of use, this lightweight volleyball system offers a wide range of height adjustments. Its internal mechanism enables smooth net height changes by raising or lowering the pulley wheel with near-infinite precision, ensuring accurate measurements even with varying floor sleeve depths. It meets NCAA, NFHS, and USVBA standards.

Available as a complete system, package, uprights only, or with center system—perfect for converting a single court into a multi-court setup. Optional custom graphics available.

10 Year Limited Warranty on Uprights

T-BASE VOLLEYBALL SYSTEM

T-Base Volleyball System offers exceptional stability and durability for competitive play. Designed with a sturdy T-shaped base, this system ensures a solid and reliable foundation on any court. It's easy to set up and adjust, making it ideal for various levels of play. Best used where floor sleeves are impractical.

- 3½" Pin-stop aluminum uprights with bases
- Adjustment range from club to men's height, 6'6" to 8'2"
- Hand knobs secure steel T-base to in-floor anchors (sold separately)
- Complete system, uprights only, and center system (convert a single court to a two court set-up)

10 Year Limited Warranty on Uprights

CLUB TEAM SHELTER

The Club Team Shelter is perfect for schools and clubs that are looking for a semi-portable shelter. This Shelter offers protection from the elements as well as privacy for players and coaches alike. Designed with weather-resistant fabric in three sections, it allows easy removal of the sides for customizable coverage.

Features the
EASY TRACK™
Flush mounted Net Attachment System

- Powder coated, white aluminum frame.
- Removable, Weather Resistant and UV protected cover, available in 6 colors *(see colors on page 45)*
- Covers attach to shelter frame with clips and bungees to provide a snug fit
- (4) Sand bag kits included (400 lbs total ballast required)
- ***This design allows for 6' of head height all the way to the back of the shelter.***
- Add a team bench to your shelter. Will allow for up to (1) 15' or (2) 7½' benches.

Ball stop net system for lacrosse, field hockey, and other field sports. Ensure the safety of athletes, coaches, and spectators. Easy-to-use pulley system raises/lowers net!

See (pages 178-182) for details.

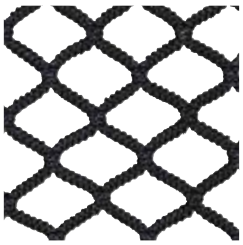

NETX1™

"Body fit" rope to adjust net slack/tension

Robust and long lasting in either white or black

SEAMLESS ONE-PIECE LACROSSE NET

BEST SELLER

NCAA COMPLIANT NFHS COMPLIANT

The NETX1™ lacrosse net is the most robust and long-lasting net money can buy. Its one-piece design eliminates the most common points of failure on traditional lacrosse nets: the diagonal seams, while providing a modern aesthetic that truly sets it apart.

The UV/weather stabilized "double-needle" nylon twine has a true 7mm thickness (measured across the depth and width of the twine) with a minimum breaking strength of 770 lbs. The combination of high strength twine and lack of diagonal seams means it will outlast every other net on the market.

The included "body fit" rope adjusts the net on the goal to maintain an appropriate amount of slack so balls remain inside the goal without bouncing back out.

- Weather-stabilized 7mm x 1½" sq. knotless nylon with breaking strength of 770 lbs.
- One-piece design eliminates diagonal seams (the most common point of failure)
- Lacing cord included
- 1 Year Limited Warranty

BASEBALL/SOFTBALL TENSIONED BACKSTOP NET SYSTEMS

Safety tensioned backstop netting designed to effectively stop the ball while minimizing net deflection. Available in two standard systems.

Features:

- Designed to meet your specific field/facility needs
- Engineered structural poles with heights up to 40 ft.
- In-ground and surface mount pole installations available
- Systems can be free-standing or incorporated into backstop knee-wall
- Netting Options:
  - #36 knotted nylon, 1¾" black sq. mesh netting
  - 1¾" black knotted Dyneema (UHMWPE) sq. mesh netting, for unsurpassed strength and visibility
- Poles are powder coated black over zinc rich primer
- All hardware is galvanized
- 3 Year Limited Warranty

Tensioned Pole to Pole Backstop Net System

BTPNS Engineered structural poles support tensioned netting with fewer poles.

Tensioned Cable Backstop Net System

BPCNS Pull-back cables attached to building structure or offset pull-back poles, for a cleaner look with reduced obstructions.

OUTDOOR FIELD PADDING

Protective padding is an essential component for providing a safe athletic environment. Reduce the risk of injury from unpredictable ricochets from foul tips and passed balls on the baseball field. Keep in mind the contact that players will have with outdoor fencing or walls and the risks that come with them.

STADIUM PADDING

CUSTOM GRAPHICS

- 3" thick high-impact polyurethane foam
- ¾" exterior grade sheathing, sealed and stained on all sides
- 18 oz. vinyl with UV protection
- Attachment: Z-clip (for wood and masonry walls) or Lag and Disc (for chain link fence)
- Optional graphics available, *call 800-243-0533 for details*
- See below for vinyl colors (specify when ordering)

STC-8XX (EACH)

OUTFIELD BATTER'S EYE

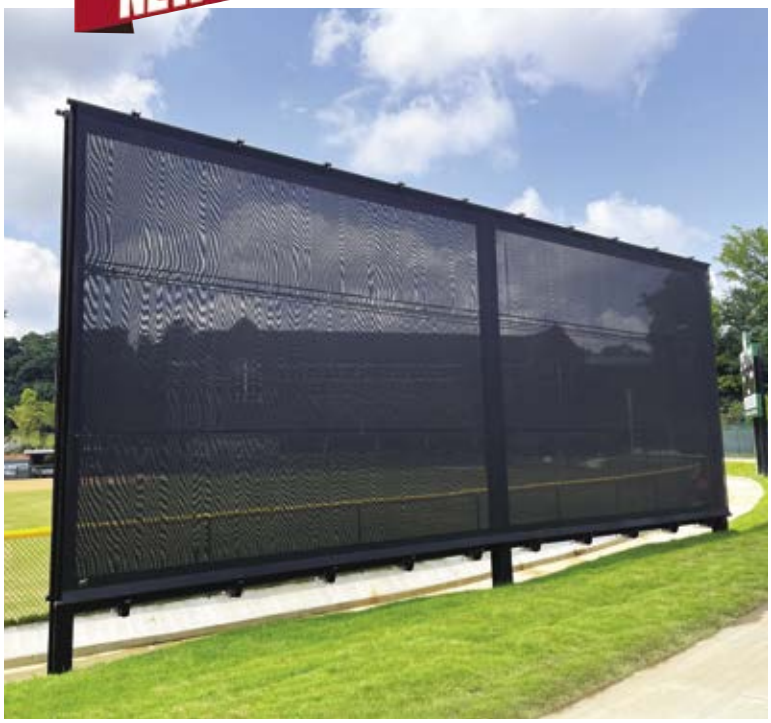

The batter's eye or batter's eye screen is a solid-colored, usually dark area beyond the center field wall of a baseball stadium, that is the visual backdrop directly in the line of sight of a baseball batter, while facing the pitcher and awaiting a pitch. This dark surface allows the batter to see the pitched ball against a sharply contrasted and uncluttered background. Its purpose is the safety and hitting success of the batter.

Features:

- All I-beams are zinc primed and powder coated black
- Double single-piece black windscreen panel, front and back made from vinyl coated polyester mesh
- Includes all necessary assembly hardware
- Engineered to meet ASCE 7 105 MPH wind rating, exposure C
- Optional windscreen colors and graphics available

20'H x 40'L BE-24 (EACH)

Important notes for Wall-Mounted Backstops and Shooting Stations:

Wall-mounted backstop systems should only be installed on walls capable of supporting the weight of the equipment plus the additional weight of a player hanging on the rim. Consult an architect, structural engineer or contractor if necessary. Jaypro Sports bears no responsibility for the structural integrity of the wall the backstop is mounted on.

HEIGHT ADJUSTERS

Height Adjuster – Adjust the height of your backboard and rim from 10 ft. to 8 ft. for youth play. Jaypro's Height Adjuster is stable and easy to operate. Constructed of slide steel frames, which provides tighter clearances resulting in less shake than other height adjusters on the market – even at lower playing heights. Choose either manual operation or electric.

MANUAL HEIGHT ADJUSTER

Housing constructed of slide steel frames driven by a ¾" Acme thread rod that easily raises and lowers the backboard with a manual hand crank (HAHC). Height markings are embossed into the side of the adjuster every 6" to allow the operator to establish an accurate height. The manual height adjuster may also be controlled using a portable Cordless Drill operator, which is a popular option when retrofitting new height adjusters on existing backstops.

SMHA (EACH)

Manual Height Adjuster

ELECTRICALLY OPERATED HEIGHT ADJUSTER

Electrical height adjusters make raising and lowering the backboard as easy as turning a key, radio remote, pluggable power wand, or operating with a touchscreen. The electric height adjuster is powered by a thermally protected 1/10 HP motor, requiring 110-120 volt, single phase, 1.35 amp motor with a 4' pigtail. Electric height adjusters may be hard wired, or temporarily powered off a standard 120 volt electrical wall outlet. This height adjuster includes a redundant hard stop safety feature to catch the board and goal in the event of a failure.

GYM DIVIDER CURTAINS

Jaypro Sports offers a variety of functional and attractive divider curtains that help divide any sports facility or institutional space. From power-controlled to manual curtains, we custom design divider curtains for any facility size requirements. Available in solid vinyl or vinyl coated mesh with several color and custom graphic options.

CUSTOM GRAPHICS

FOLD UP CURTAIN

The most versatile and robust curtain in the industry. This curtain uses hoist cables which are weaved through grommets and are attached to the bottom batten. Hoist cables simply roll on the driveline, causing the curtain to fold neatly towards the ceiling in an accordion style fashion.

- Most durable, longest lasting curtain in the industry
- Easiest retractable curtain to install
- Compact fold to maximize clear height

Call for freight quote.

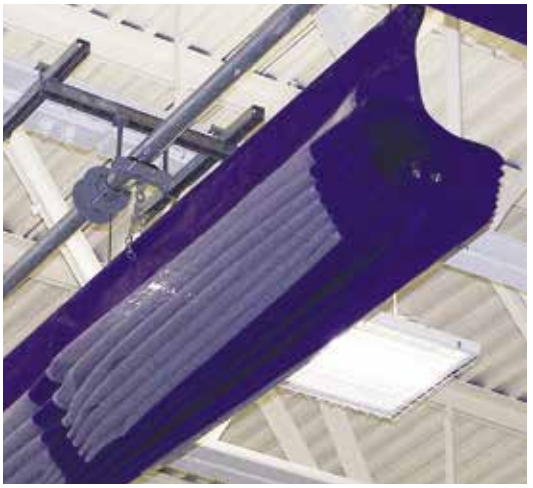

FC-680

Electric Curtain Winch CW-1800

See (page159) for details

CENTER DRIVE CURTAIN

Center Drive Curtain CDC-800 is a gymnasium divider designed to efficiently separate sections of a sports facility. The Center Drive mechanism allows for smooth, even deployment and retraction of the curtain. Includes safety straps and a controlled descent system to ensure safe operation. This divider curtain is ideal for schools, universities, and community sports facilities needing flexible space management solutions.

Call for freight quote.

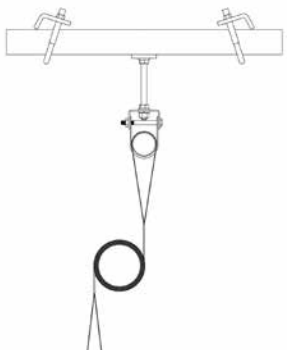

CDC-800

Visit JAYPRO.COM for product specifications

This design allows the center roll up curtain to stow twice as fast as full suspended curtains. The curtain rolls into a small round tube that stows away for maximum clearance.

SLOPE FOLD CURTAIN

The Slope Fold Curtain is a versatile and efficient gym divider curtain designed to maximize space utilization in sports facilities. Engineered to fit against the roof frame and conform to virtually any slope while providing maximum clearance for all sporting activities. Available in various sizes and colors to fit different gym configurations and aesthetic preferences.

Call for freight quote.

Raised Position

SC-685

Lowered Position

TOP ROLL CURTAIN

Uses no hoist cables or straps to raise and lower the curtain and stores tighter than many other curtain designs for additional clearance with low ceilings. When operated, the entire fabric rolls onto the drive pipe.

Call for freight quote.

TC-701

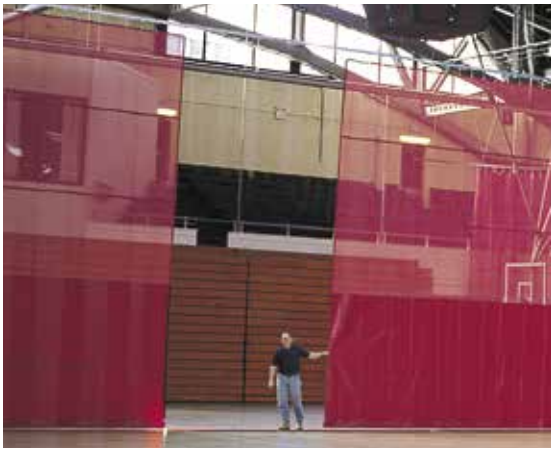

WALK DRAW CURTAIN

Designed for manual operation, this curtain is moved by pulling it along a ceiling suspended track to store along a perimeter wall.

Call for freight quote.

WC-660 & WC-660BP

ROLL UP CURTAIN

Raised and lowered by heavy-duty hoist belts and stores in a 2' storage space close to the building structure. When operated, hoist belts roll the fabric onto the bottom batten.

Call for freight quote.

RC-690

FIELD HOUSE SLOPE FOLD CURTAIN

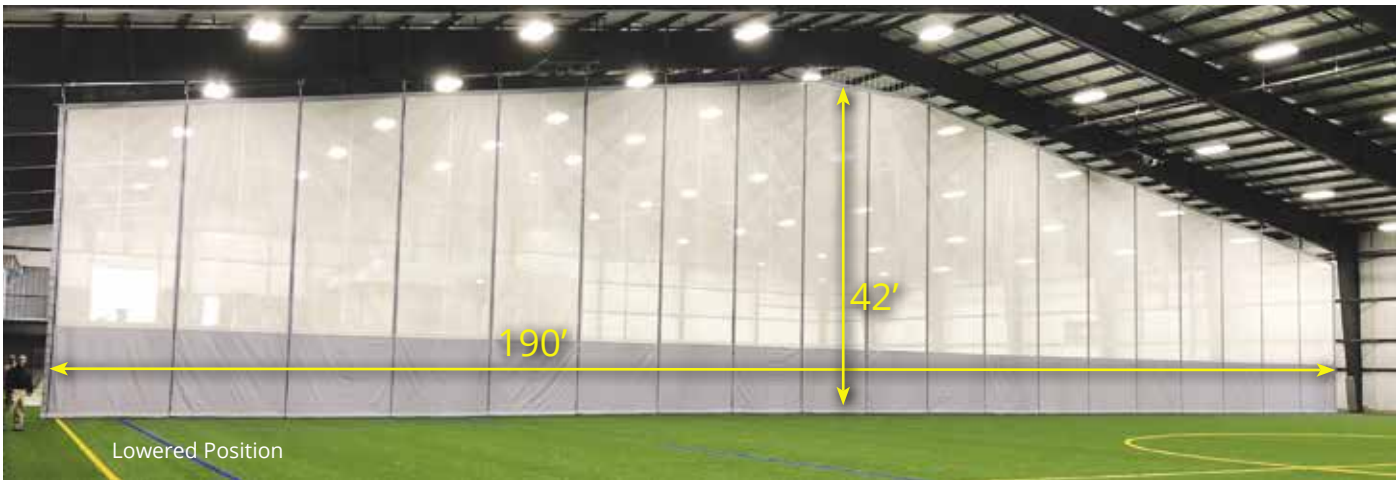

Engineered to fit against the roof frame and conform to virtually any slope while providing maximum clearance for all sporting activities. This mega curtain utilizes dual synchronized winches with a low voltage controller. This curtain can conform to virtually any roof to maximize clearance for all sporting events. Pictured below, this SC-685XL curtain measures 190' long and 42' high at the peak and raises to the ceiling in 75 seconds.

Call for freight quote.

SC-685XL

75 seconds from the full down to fully stowed.

PERIMETER FOLD UP CURTAIN

Jaypro Perimeter Curtains are ideal for completely following the inside or outside perimeter of running tracks within multi-use facilities and field houses. These curtains are designed to separate the running track from interior basketball or volleyball courts, thereby maximizing facility use and flexibility. Adjoining curtains are overlapped and offset to allow for easy egress.

MOTORIZED NETTING

Jaypro Sports offers motorized netting systems designed for indoor athletic facilities. These systems provide an efficient and convenient way to manage netting, which can be used for various sports and activities. The motorized mechanism allows for easy raising and lowering of the nets, optimizing space usage and enhancing safety. This type of netting is ideal for dividing courts, protecting spectators, and creating versatile spaces within gyms and other indoor sports environments.

Visit JAYPRO.COM for product specifications

PROTECTIVE STATIONARY NETTING

Jaypro Sports offers protective stationary netting designed for indoor athletic facilities to ensure the safety of players, spectators, and property. This netting is typically used in gymnasiums, field houses, and multipurpose athletic spaces to prevent balls and other sports equipment from causing damage or injury. The netting is made from durable materials to withstand impact and is installed in areas like behind goals, along walls, or in high-traffic zones. Jaypro Sports' netting solutions are customizable to fit various facility sizes and needs, providing reliable protection while maintaining visibility and airflow.

SECURELIFT™ WRESTLING MAT STORAGE SYSTEMS

Eliminate risk of injury to students, athletes and coaches from manual lifting and transporting of heavy and awkward mats. Gain valuable storage space and extend the life of your wrestling mats. Simply roll the mat(s) onto the sling, attach the sling to the load bar, turn the key to raise the unit and store at ceiling height.

3 Year Limited Warranty.

- System adaptable to any wrestling mat storage system
- Versatile mounting clamps included
- 3 Year Limited Warranty

MH-MLS (CALL)

MASTER EQUIPMENT CONTROLLER 2

The MEC2 control system is similar to your touch screen smartphone, with a slick wall mounted touch screen that allows grouped operation of up to eight devices. The MEC2 includes intuitive menus to allow anyone to easily program at any point in time, without switches or removal of the screen.

The MEC2 control system is ideal for grade schools or facilities with 6 or more retractable devices. Also, the MEC2 can be easily retrofitted into existing facilities that may have an outdated numbered touch pad or existing key switches.

The system has tiered access levels that can be easily programmed at any time to prevent unauthorized use. To ensure the equipment operator has a clear line of sight of the equipment, the touch screen requires constant contact on the touch screen during the operation of the equipment.

Simply put, the MEC2 is the leading economical equipment control system in the industry!

State of the art, and easy to operate touch-screen. The display has an unlimited number of screens available that can interface with the MEC2 system.

- Low voltage 7" capacitive touchscreen
- Individual or grouped simultaneous operation
- Easily expandable w/ low cost expansion relay boards
- Protected with multiple tiered access logins
- Simple retrofit from existing methods of operation
- Direct replacement for MEC-99 control system
- Refer to the MEC2 spec sheet for additional information

MEC2 (SYS)

Cape Girardeau SportsPlex, Cape Girardeau, MO
Jaypro Sports - Winner of the American Sports Builders Association award for Multi-Purpose Field House Facility of the Year

EASY TOUCH EQUIPMENT CONTROLLER

The ETEC control system is designed for large and small sports facilities that require the ultimate control of the retractable equipment. With a single push of a button, the operator can simultaneously raise multiple devices while lowering several others from the 10" touch screen. The ETEC control system is highly recommended for pay-to-play facilities where quick sport turnover is critical, allowing multiple basketball courts to be converted to volleyball courts in a few quick minutes.

The ETEC touch screen is equipped with a lockable steel enclosure that can be surface mounted or flush mounted. The touch screen is housed behind a polycarbonate window to provide protection from unauthorized use or damage from errant balls.

This system includes a custom designed graphical interface with your facility logos and colors.

- Low voltage 10.4" high resolution LCD touchscreen
- Simultaneous up and down operation
- Customized facility layouts with intuitive graphical interface
- On-the-fly quick selection programming
- Instantly saves user programs with the press of a button
- Refer to the ETEC spec sheet for additional information

ETEC (SYS)

Customize your touch screen with your team spirit. Will operate all backups, curtains, etc. at the same time.

"Intent" safety key pad requires constant touch control for system operations.

WALL PADDING

WallGuard

When selecting wall padding for your facility, consider the specific needs and risks associated with your environment. Impact, Fire, and mixed-rated wall padding each offer unique advantages that can enhance the safety, compliance, and overall protection of your facility.

Prioritizing these features ensures you provide a secure environment for all users, whether in a school, university, community center, or sports complex.

Available in two mounting styles.

Nailing edge lip top and bottom

Z-clip top and bottom

Indoor Wall Padding Advantages

- Safeguards athletes from hard impacts against walls, which is crucial in high-contact sports like basketball, wrestling, and gymnastics.
- Fire-rated wall padding helps slow the spread of flames, enhancing overall facility safety.
- Athletes can play more aggressively and confidently, knowing they have a safer environment.
- Facilities with comprehensive safety measures, including wall padding, may benefit from lower insurance premiums.
- Wall padding is relatively easy to clean and maintain, ensuring a long lifespan and continued safety.
- Customizable padding can feature facility logos, team colors, and other branding elements.

CUSTOM GRAPHICS

Customize your Gymnasium Wall Pads with your digitally printed team logo or school graphics. Contact customer service at 800-243-0533 for Custom Graphics information and Pricing.

WallGuard IMPACT RATED

BEST SELLER

HIGH IMPACT FLAT SAFETY WALL PADDING

Protect your athletes and facility with impact-resistant wall safety padding. Ideal for gymnasiums, sports arenas, and recreational centers, this padding absorbs the force of accidental collisions, minimizing the risk of injury.

Designed to cushion against falls, collisions, and other physical impacts, it's essential for areas where safety is paramount. The durable construction ensures long-lasting performance, providing peace of mind that your players and spectators are protected.

Exceeds impact standards as defined in
ASTM F2440-04

- 2" thick high impact foam with 7/16" Oriented Strand Board (OSB) backing
- Entire pad wrapped with 14 oz. fire retardant vinyl
- Vinyl available in 13 colors
- Vinyl is washable, resistant to fade, rot, mildew and fungus
- Available with 2 mounting options

WallGuard FIRE RATED

FIRE RATED FLAT SAFETY WALL PADDING

Safety doesn't stop at impact protection—ensure your facility is prepared for all scenarios with fire-resistant wall safety padding. Perfect for areas where fire safety regulations are strict, such as schools, public spaces, and commercial buildings, this padding is engineered to withstand high temperatures and prevent the spread of flames.

Its specialized material not only adds a layer of safety but also complies with fire codes, giving you an extra level of protection in the event of an emergency.

Certified Class A fire rating in accordance with NFPA255/ASTM E-84

- 2" thick fire retardant foam with 7/16" Oriented Strand Board (OSB) backing
- Entire pad wrapped with 14 oz. fire-retardant vinyl
- Vinyl available in 13 colors

WallGuard FIRE/IMPACT RATED

FIRE RATED/HIGH IMPACT FLAT WALL PADDING

Get the best of both worlds with impact and fire-resistant wall safety padding. This dual-purpose padding provides comprehensive protection, combining the cushioning effect of impact resistance with the vital safety of fire resistance. Ideal for multi-use facilities, this padding ensures that your walls are safeguarded against both physical collisions and fire hazards.

Whether in a gym, auditorium, or any high-traffic area, this padding offers a robust solution that prioritizes the safety of everyone in your facility.

Exceeds impact standards as defined in
ASTM F2440-04

Surround your field with FIELDPRO™ netting.

Maintain a clean, professional appearance on your sports field while ensuring the safety and security of everyone involved.

BARRIER NET SYSTEMS

Keep your field safe and organized with high-quality ball field barrier netting.

Designed to protect spectators, players, and property from errant balls, this durable netting is ideal for baseball, softball, and other field sports. Once installed, this system is easy to remove and and maintain, the FieldPro barrier netting provides reliable protection and can be customized to fit your field's specific dimensions.

We have vested installer partners all around the USA. Each is dedicated to make this netting system perfect for your park, school, or sports complex. Get FieldPro netting for your field and feel good knowing your playing environment is safe.

FIELDPRO™
NET SYSTEM

POLE OPTIONS

Offering a range of pole heights from 10’ to 40’, our expert designers will help you achieve the perfect balance of style, functionality, and protection for your playing areas.

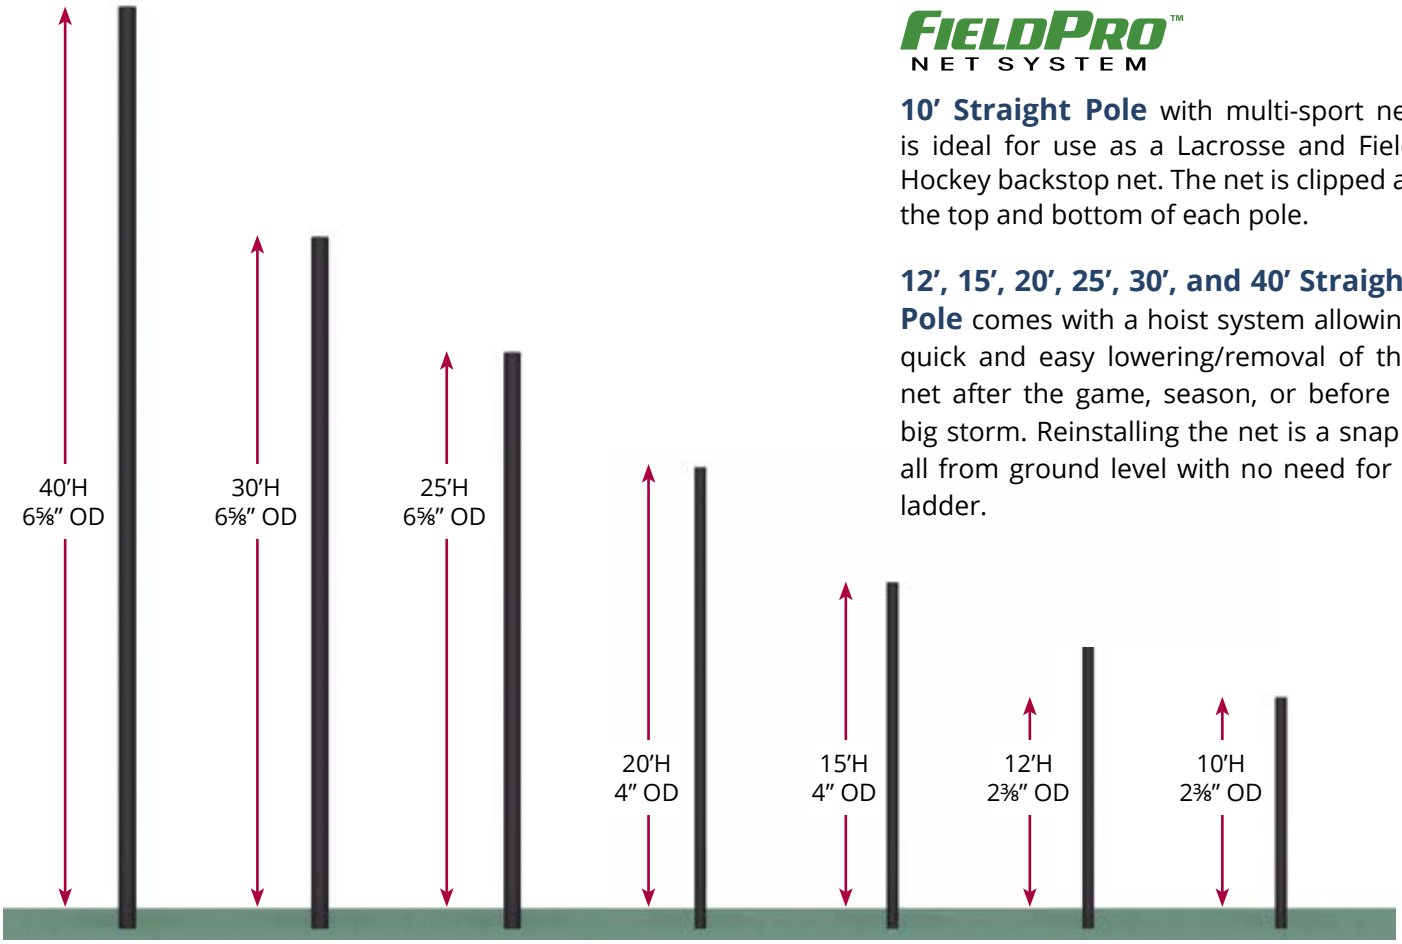

Need a custom field layout? Jaypro can tailor any design to fit your needs—just ask!

Features:

- Pulley system to raise/lower net (excludes10’ poles)
- (6) net options to choose from
- Ground sleeves facilitate installation and allow for system removal as needed
- Covers for ground sleeves are sold separately
- 3 Year Limited Warranty: System

Call for freight quote and pricing.

FIELDPRO™ NET SYSTEM

10’ Straight Pole with multi-sport net is ideal for use as a Lacrosse and Field Hockey backstop net. The net is clipped at the top and bottom of each pole.

12’, 15’, 20’, 25’, 30’, and 40’ Straight Pole comes with a hoist system allowing quick and easy lowering/removal of the net after the game, season, or before a big storm. Reinstalling the net is a snap - all from ground level with no need for a ladder.

Visit JAYPRO.COM for product specifications and

Call your Jaypro Sports Rep to help design your field TODAY!

PORTABLE PICKLEBALL USAP COMPLIANT

RALLY PICKLEBALL RPP-3PORT

Designed for competitive play where in-ground installation isn't an option or desired. Equipped with heavy-duty, non-scuff wheels for easy maneuverability, the system can be conveniently collapsed and stored when not in use. The black powder-coat finish resists rust, ensuring long-lasting durability. Heavy-duty steel construction provides optimal net tension with no sagging when fully extended.

Features:

- Portable net system
- Collapsible frame reduces storage requirements. The frame can be collapsed to 13½' or 7' long
- 3-inch removable, round powder coated uprights with an internal self-locking winch and welded lacing rods for net attachment
- Wheel assembly can be flipped up or removed during play with a quick release pin lock
- 2-foot cross members ('feet') stabilize the net system when it is on the ground, these can be removed for storage
- 21'L x 32"H net (PT-21N) included

System RPP-3PORT (EACH)

PORTABLE PICKLEBALL NET SET

Game quicker and easier on nearly any surface with this set. Meets USAPA requirements!

- Carry bag included

TERMS & CONDITIONS

Contact your Local Jaypro Sports Representative or Jaypro Sports for detailed information on Terms & Conditions

Returns: Jaypro Sports will accept the authorized return of all standard products for any reason within 30 days of the ship date. SPECIAL ORDER/ CUSTOM COLOR ITEMS ARE NOT RETURNABLE. Customers must obtain a return authorization number from Jaypro Sports after supplying the invoice number, item number, and reason for return. Customer is responsible for a 25% restocking fee and return freight charges.

Freight Damages & Discrepancies: Damages or shortages must be reported within 7 days of the delivery date. It is the responsibility of the customer to sign the delivery receipt as damaged or short. If Jaypro Sports is notified within this time frame, we will replace as needed and file the claim with the carrier.

Payment Terms: We accept checks, American Express, Discover, MasterCard, and Visa. Approved accounts are required to submit a purchase order and will be billed Net 30 from the invoice date. All past due accounts are subject to a 1.5% per month (18% per year) interest charge and collection costs. Any approved account choosing to pay by credit card after the invoice date may be subject to a 3% credit card processing fee.

Warranties: Limited Warranty: Jaypro warrants most of our products against defects in workmanship and material for three years from the date of shipment, unless otherwise noted in the catalog.

We reserve the right to correct typographical errors. Visit www.Jaypro.com for a full list of Terms & Conditions.
