# LOOSE FILLED RUBBER MULCH

## OVERVIEW

Initial Price	\$\$
Annual Cost	\$
Maintenance	annual
Longevity	10+ years
Warranty	12 year color fade

## HELPFUL FACTS

*Our loose rubber mulch is  
ADA compliant*

*Rubber will not breakdown  
over time or fade in color*

*Wear mats are recommended  
for base of slides and  
beneath swings*

Loose filled rubber mulch is made from 100% recycled rubber and is the perfect ground cover for playgrounds and play areas. Rubber mulch is rated as the safest ground cover on the market and also provides superior drainage and minimizes dust, keeping children clean while at play.

Rubber mulch is five times heavier than wood mulches and will not float, absorb water, or erode during heavy rain and flooding. Rubber mulch does not attract termites, carpenter ants or other harmful insects.

*16' critical fall height protection at a 6" depth*

*12' critical fall height protection at a 5" depth*

*10' critical fall height protection at a 4" depth*
