SOUTHERN RECREATION SURFACING SERVICES

Our surfacing products are quoted turnkey and typically include the following:

Excavation to needed sub grade & disposal of cut material

Compacted stone sub base

Under drainage when needed

Perimeter sub border or nailer

Installation of surfacing products

All necessary site cleanup and disposal of trash

All workmanship and surfacing are warranted

COMPARISON COSTS FOR AN 1,800 SF PLAYGROUND

| | |
|---|-------------|
| Playground Mulch at 12" Compacted Depth | \$3,000.00 |
| Loose Rubber Mulch at 5" depth | \$6,800.00 |
| Poured-in-Place Rubber at 2" Thickness | \$21,500.00 |
| Synthetic Turf with Rubber Base | \$27,000.00 |

prices shown are with installation and are approximations

PLAYGROUND MULCH (EWF)

OVERVIEW

| | |
|---------------|-----------|
| Initial Price | \$ |
| Annual Cost | \$\$ |
| Maintenance | Monthly |
| Longevity | 2-3 years |
| Warranty | n/a |

HELPFUL FACTS

Use wear mats to reduce displacement in “kick out” areas such as underneath swings and the bottom of slides.

Engineered wood fiber is a popular choice for budget conscious playgrounds and will require on-going maintenance and occasional topping off during its lifetime. This maintenance will help to maintain the recommended compacted material depth, thus keeping the surface compliant with applicable standards and warranty.

Wood fiber is non-toxic and does not contain paint, chemicals, or additives. It contains minimal bark and is free of twigs, leaf debris, and other organic material

LOOSE FILLED RUBBER MULCH

OVERVIEW

| | |
|---------------|--------------------|
| Initial Price | \$\$ |
| Annual Cost | \$ |
| Maintenance | annual |
| Longevity | 10+ years |
| Warranty | 12 year color fade |

HELPFUL FACTS

*Our loose rubber mulch is
ADA compliant*

*Rubber will not breakdown
over time or fade in color*

*Wear mats are recommended
for base of slides and
beneath swings*

Loose filled rubber mulch is made from 100% recycled rubber and is the perfect ground cover for playgrounds and play areas. Rubber mulch is rated as the safest ground cover on the market and also provides superior drainage and minimizes dust, keeping children clean while at play.

Rubber mulch is five times heavier than wood mulches and will not float, absorb water, or erode during heavy rain and flooding. Rubber mulch does not attract termites, carpenter ants or other harmful insects.

16' critical fall height protection at a 6" depth

12' critical fall height protection at a 5" depth

10' critical fall height protection at a 4" depth

ESPRESSO BLACK

MOCHA BROWN

CEDAR RED

GREEN

POURED-IN-PLACE (PIP) RUBBER

OVERVIEW

| | |
|---------------|-----------|
| Initial Price | \$\$\$\$ |
| Annual Cost | \$ |
| Maintenance | minimal |
| Longevity | 15+ years |
| Warranty | 3 years |

HELPFUL FACTS

The most cost-effective selections for PIP include 50% black and 50% of a selected color. Adding multiple colors or 100% color will affect the total cost.

Poured-in-Place Surfaces provide durable critical fall protection for children's playgrounds, "trike tracks," pool decks and water play areas; they are also ideal for walking tracks and fitness trails. ASTM, CPSC and ADA compliant, Poured-In-Place surfaces can be designed and poured in wonderful combinations of patterns and graphics that cannot be achieved using square tiles. Recommended to be installed only by professionals, a choice of Poured-in-Place surfacing allows limitless design freedom.

24 COLORS AVAILABLE

SYNTHETIC TURF

OVERVIEW

| | |
|---------------|-----------|
| Initial Price | \$\$\$\$ |
| Annual Cost | \$ |
| Maintenance | Annual |
| Longevity | 15+ years |
| Warranty | 3 years |

HELPFUL FACTS

*Turf is typically a cooler
surfacing choice*

*Finished product mimics
grass for a more natural look*

*Turf can include inlaid
striping for various sports*

Turf is an engineered grass product designed to bring the look of real grass to your environment. Unlike real grass, however, it offers height appropriate impact attenuation and provides the appearance of a beautiful lawn that never needs mowing!

Your turf will be laid over a cushion pad to provide drainage and fall attenuation properties up to 12'. After the turf layer is installed, the infill is worked into the blades to discourage flattening.

Properly installed, it offers adequate drainage, great impact attenuation, long wear, and ADA accessibility in playground applications.
